## **Request for Proposals (RFP)**

### **RP460-2019-01 for External Engagement for the Assessment of Annual Cancer System Performance Indicators**

Please see the answers below regarding any questions raised in relation to this RFP.

**1. Question:**

Can you please confirm that CPAC is wanting to see multiple options for online engagement, as opposed to only one? If so, how many options would CPAC like to see?

**Answer:**

We are open to seeing up to three online engagement options, as long as they are within the stipulated budget. That said, we will evaluate Proponents based on their ability to recommend an optimal option that is aligned with (and shows understanding of) the project needs outlined in the RFP.

**2. Question:**

On page 10, in the scoring criteria for interviews, it states that "...including the presentation of a short demo of proposed online tools and virtual platforms during the interview." However, as we would not have been selected yet and would be proposing an array of options, we would likely not have the subscription licenses for each platform at this point; would the Partnership be open to waving this requirement?

**Answer:**

We would be open to waiving the requirement, if access to the demo needs the purchase of subscription licenses. Please note that it is essential for the Proponent to have clear understanding and experience using proposed tools for external engagement, as outlined on pages 10 and 22 of the RFP. Therefore, we would be interested in seeing past work where the Proponent has successfully implemented and used online tools, even if a demo is not available.
